

Introducing...  
**encore** packaging solutions

Innovative packaging solutions for Food & Beverage, Healthcare,  
Pharmaceutical Industries

our aim...

“To exceed our customer’s expectations in quality, delivery and cost through continuous improvement & close customer interaction”

so why chose **encore**...

Encore Packaging Solutions is a part of The Encore Group with a combined turnover of £43M.

Moved to new dedicated factory June 2015 in County Durham as part of a £1.7M investment.

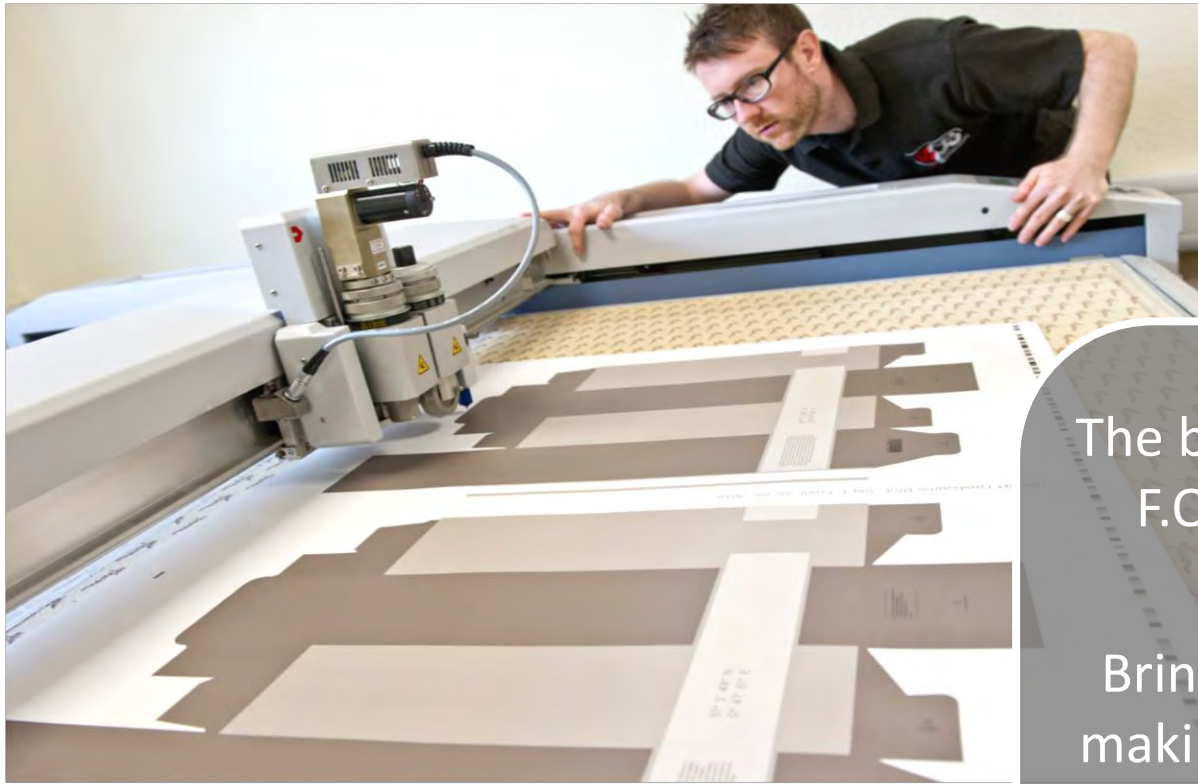

Privately owned and financially sound.

Solid Board & Corrugate Solutions provided under one roof with both Litho & Flexo print processes available.

Full BRC AA Accreditation

We've always been at the forefront of technology, techniques and know-how backing this up with investment in the best equipment and the best people.

The box starts here with our F.O.C full CAD sampling service.

Bringing new projects to life making sure we sample in the proposed material grade to gain full approval before releasing the digital cutter.

Full colour Digitally printed mock ups can also be provided.

All paper, solid board and micro-fluted substrates are litho printed via our B1 Heidelberg CX102 Press.

Colour Management using our 'on board' spectral equipment maintains colour balance to achieve specified Delta targets.

Precision die cutting and creasing is carried out by our Bobst Novacut system.

Substrates from 200micron up to 4mm E Flutes can be accommodated.

Waste is auto extracted direct to our outdoor recycling facility.

Our Bobst Visionfold enables high speed pre-fold and gluing for straight line and crashlock formats.

We can also glue 4 & 6 corner cartons, Microflutes and corrugate

A 3 month stock holding service can be offered with 24 hour call off from our 3,500 pallet warehouse.

Bespoke outer cases are made on site to fit your products and to enable the best pallet configuration.
